

HeartStart OnSite Defibrillator

The First Defibrillator Available Without a Prescription to Commercial Users

Philips, the leader in portable defibrillation innovation, designed the HeartStart OnSite Defibrillator for the ordinary person in the extraordinary moment. The first commercial defibrillator without a prescription, the OnSite is designed to be the easiest to use and most reliable defibrillator available. The innovative technology, based on extensive research and user feedback, has produced a defibrillator so easy-to-use that you can potentially save the life of a coworker, friend, or anyone else stricken with sudden cardiac arrest. Weighing just 3.3 pounds, this small and lightweight defibrillator can be easily carried to the victim's side. Using clear, calm voice instructions, the OnSite Defibrillator guides you through each step of defibrillation, including CPR coaching. Integrated SMART pads placed on the victim's bare skin transmit information to the defibrillator, which senses and adapts to your actions every step of the way. HeartStart OnSite includes proven Philips technologies for heart rhythm assessment (SMART Analysis) and defibrillation energy delivery (SMART Biphasic). And like all HeartStart defibrillators, it can be used to treat infants and children as well as adults.

Self-Test Ensures Readiness:

- ▶ Daily self-tests check electrical components, subsystem and battery
- ▶ Self-test also verifies that the pads cartridge is installed and in working order
- ▶ Blinking green "Ready" light means the OnSite has passed its last self-test, so you can be confident the defibrillator is ready for use

Long Battery Life:

- ▶ 5-year shelf life plus 4-year installed life
- ▶ Same battery technology used with confidence in millions of cameras

Easy-to-Use:

- ▶ Using the HeartStart Defibrillator is simple. Pulling the green handle activates the defibrillator and voice instructions. These instructions are paced to your actions, to help guide you through the entire process from placing each pad on the patient to delivering a defibrillation shock.

HeartStart OnSite Defibrillator

ZOLL® AED Plus® Defibrillator

The First and Only Full-Rescue AED

When a cardiac arrest occurs, the fact is that only half of the victims will need a shock. The other half require high-quality cardiopulmonary resuscitation (CPR). You deserve an automated defibrillator (AED) that helps you all the time, one that can actually see when you are doing CPR and provide help. You need more than just commands without assistance. That's not smart, and it's certainly not help. Only ZOLL's AED Plus® features Real CPR Help™, a tool that is able to actually see what you are doing and provide feedback to help you do it well. Audio and visual prompts help you rescue with confidence and clarity unmatched by any other AED. *Soft carrying case included.*

Visual Prompts:

- ▶ Not pushing hard enough?
It will tell you to push harder.
- ▶ Pushing hard enough?
It will say, "Good compressions."
- ▶ Not pushing fast enough?
A metronome will lead you to the right rate. It will even show you the depth of each compression. In real time.
- ▶ Not yet started?
The AED Plus® will tell you again to get started.
- ▶ Compressions stopped?
It will tell you to continue.

BH199

ZOLL® AED Plus® Defibrillator

Large EMS Duffle with Supplies

Easily-accessible main compartment, ten inside pockets, four outside pockets and numerous elastic hold-downs. Removable padded insert to hold "D" sized oxygen tank.

J279 One-Piece Safety Belt, 72"

AJ029 Two-Piece Rail Safety Belt, 60"

KED™ Kendrick Extrication Device

For extricating patients from auto accidents and confined spaces. Immobilizes head, neck and torso while minimizing further injury. New color-coded straps for visibility. Wrap around design provides horizontal flexibility for application and vertical rigidity for support. Three handles sewn in. Can be inverted as hip splint; adapts for children and pregnant women. Includes wraparound vest, Adjusta-Pad™, neck roll, two head straps and carrying case. Case is vinyl-coated nylon, large enough to carry extrication collars. Stores rolled for immediate use. Size (flat) 32 $\frac{5}{8}$ " long, 31 $\frac{1}{2}$ " wide, 1" thick. Capacity 500 lbs. *Ship. wt. 8 lbs.*

X638 KED™ Kendrick Extrication Device

Universal™ Head Immobilizer

Simple to use, lightweight and easy to clean. Composed of two plastic-coated, closed cell foam head supports, a universal attachment base and two durable head straps. Base plate fits all Ferno wooden, aluminum and plastic backboards. Head supports can be used on standard backboards, or turned around for use on the Scoop Stretcher.

BE015 Universal™ Head Immobilizer

Nomex® Safety Blanket

Use in an emergency to help protect against flames, treat shock or to smother flames on clothing. The flame-resistant fiber is acid resistant and also high temperature resistant. Measures 60"x80". Ship. wt. 10 lbs.

AJ075 Nomex® Safety Blanket

Flame Resistant Wool Blanket

An ideal emergency blanket for every rescue vehicle. Made of 80% wool and can be cleaned. Measures 66"x84". Color: maroon. Ship. wt. 4 lbs.

BK006 Flame Resistant Wool Blanket

Disposable Emergency Blanket

Used by emergency services nationwide to help keep patients warm and dry. Provides insulation to retain body heat while protecting from cold or wet weather. Individually wrapped in a poly bag, keeping it clean and ready to use at any time. Made of laminated urethane foam. Measures 54"x80". Ship. wt. 1 lb.

AK242 Disposable Blanket

Water Rescue Manikins

These adult and adolescent models are made of durable vinyl plastic with rust-resistant skeletons, articulated joints, and optional CPR capabilities. When filled with water, the manikin will submerge to the neck. Add an additional 5-10 pound weight to sink.

BA114 Adult Water Rescue Training Manikin

BA115 Adult Water Rescue Training Manikin and CPR

Water-Jel Fire Blanket

A one-step system for Emergency First Aid on a burn victim. It puts out the fire, stops burn progression and cools the skin, eases pain, and protects against airborne contamination. Water-Jel Fire Blankets consist of a scientifically formulated cooling gel and a special carrier. The 100% worsted wool blanket is soaked in a water-based/water-soluble, bacteriostatic and biodegradable gel. The full size blanket adequately covers a patient or can be used to douse a fire or dangerous white phosphorous. Dimensions: 5'x6'. Shelf life: 5 years. Ship. wt. 21 lbs.

AA714 Water-Jel Fire Blanket

Water-Jel Burn Wrap

Smallest and most versatile of the blankets, it is ideal for covering torso, leg, or entire back injuries. Dimensions: 3'x2 1/2'. Shelf life: 5 years. Ship. wt. 10 lbs.

X856 Water-Jel Burn Wrap

8" x 18" Burn Dressing

The largest burn dressing - excellent to cover sizeable areas such as the thigh, shoulder, or back area. Large enough to wrap around the bottom portion of the leg or the thorax area. Gel-soaked, sterile, and foil-packed. Shelf life: 5 years. Ship. wt. 3 lbs.

X857 8"x18" Burn Dressing

Rescue Randy™

Randy's fully articulated body duplicates the weight and resiliency of a human body and can be positioned for realistic patient handling or extrication in situations too hazardous or uncomfortable for volunteer victims. His rugged construction means years of use in any rescue training environment. Clothing not included. Ship. wt. 125 - 185 lbs.

AC057 Rescue Randy™, 105 lbs.
