

Interceptor® Level A Deluxe Suit

Interceptor® is the apex of Lakeland Industries' chemical protective clothing line. There is an Interceptor® suit for your needs; gas, vapor, aerosol, liquid or particulate protection. Interceptor® offers dependable protection, superior performance and patented garment features that have been proven over a broad range of chemical challenges in a wide range of environments. Available in encapsulating and non-encapsulating configurations.

- ▶ Patented ShurSeal Teflon® visor process permanently seals the visor into the suit with no sewing involved so that liquids can't penetrate the visor edge
- ▶ Teflon® outer layer on visor prevents impairment of vision due to chemical contact
- ▶ Seams sealed inside and out for maximum protection

ChemMAX® 3 Coverall

Ideal for the industrial environment as well as emergency responders and law enforcement, ChemMAX® 3 uses the latest technology to produce a superior product. Durable and lightweight, ChemMAX® 3 provides a barrier against a broad spectrum of toxic industrial chemicals, dual use chemicals, chemical warfare agents and other harmful contaminants. The multi-layer film is applied to a heavy polypropylene non-woven for increased strength and durability. The barrier film is significantly softer than other products on the market, resulting in a quiet, more comfortable garment. Put your trust in a ChemMAX® 3 garment and you will feel confident that you are doing your best to protect your team from the dangers lurking around them.

Frontline® 500 NFPA 1991 Chemical Suit

Now get triple assurance with a single suit certified to NFPA 1991 base plus optional Flash Fire and Liquified Gas requirements. Frontline® 500 offers three-way protection - broad chemical holdout, plus flame resistance and superior radiant heat protection for the additional hazards encountered in a chemical flash-fire. Chemical, flash, radiant - three hazards, one suit. With Frontline® 500, Kappler's got your back - and your front.

Features:

- ▶ Single garment eliminates need for typical 2-suit NFPA 1991 configuration
- ▶ Combines chemical, flash-fire and radiant heat protection in a single suit
- ▶ Seams are sewn and double heat-sealed/taped for added protection
- ▶ Large, expanded-view face shield improves field of vision
- ▶ Unique 2N1™ glove system prevents inner glove inversion when removing hands

Sizing:

- ▶ Small/Medium: 5'3" - 5'7", 120-160 lbs.
- ▶ Large/X-Large: 5'7" - 6'2", 160-220 lbs.
