

LEVR[™] ESCAPE SYSTEM

The most compact escape system available. Designed to assure rapid emergency egress with safe, controllable descent. Built around the new CMC LEVR descender, a next-generation device that uses its lever-shaped handle for improved descent control, fast and easy horizontal pay-out, reliable edge transition, and intuitive operation.

The all-new LEVR[™] descender

Machined from aircraft-grade, high-strength aluminum, the device provides smooth and reliable edge transition, minimizing potential for hang-up at window sill. Engineered for quick, easy horizontal payout of web to allow fast egress from remote anchor points and to reduce impact force on escape anchor if shock loaded during the bailout. Ergonomic, low-profile shape optimized for use with gloved hand and features a non-slip handle surface.

- LEVR Weight: 190 g (6.7 oz)
- LEVR Dimensions: 158 L x 38 W x 31H mm (6.25 L x 1.5 W x 1.25 H in)
- U.S. Patent pending

LEVR Escape System features:

- LEVR design provides smooth and reliable edge transition, minimizing potential for hang-up at window sill
 - Engineered for quick, easy horizontal payout of web to allow fast egress from remote anchor points
 - Designed to reduce impact force on escape anchor if shock loaded during bailout
 - Low-profile side carry bag designed for right- or left-handed deployment
- Fire Escape Web[™] is constructed from 100% Technora[®] fiber for high strength and heat resistance, and dramatically reduces space required for storage
 - Ergonomic design features non-slip grip

LEVR Escape System includes:

- LEVR descender reeved with 15.2 m (50 ft) of 11 mm Fire Escape Web[™] (UL Classified to NFPA 1983 – FR Escape Web)
 - FlashLite[™] Hook (UL Classified to NFPA 1983 – Escape Use)
 - Nomex[®] fabric waist carry bag (designed for right- or left-handed deployment)
- ProTech[™] Aluminum Auto-Lock Carabiner (UL Classified to NFPA 1983 – Technical Use) with sewn Kevlar[®] fiber tether.

Note: Custom carry bags, including our cartridge-style escape bags, are available to your specification. Please [contact](#) our Customer Support Team for more information.

PRODUCT WEIGHT	1.1 KG (2.4 LB)
WAIST BAG	BLACK NOMEX [®] FABRIC
LEVR COLOR	RED
NFPA RATING	ESCAPE USE
3 SIGMA MBS	15 KN (3,372 LBF)
Price	\$459
