## Transporting the Hang-Dry®

When transporting the Hang-Dry® please **do not** use the “HOOK” part of the Hang-Dry®. The “HANDLE” part of the Hang-Dry® is designed for transporting, or heavy gear, the Hang-Dry® is more stable in this position and distributes the weight evenly.

(Transport as shown in the picture below)

## Using the Hang-Dry® Safely

The Hang-Dry® is designed without an on/off switch, therefore you must unplug the Hang-Dry® before removing the suit so it is never left on accidentally.

The transporting bracket is available on our website.

Warranty: Depending on the damage the Hang-Dry® has sustained we will consider replacing/fixing the Hang-Dry® up to 5 years.

**We would like to hear from you in regards to the Hang-Dry® with some feedback.**

What you like and don't like. We really do care about our product and your opinions matter to us greatly.

Also look us up on **FaceBook, Instagram, Twitter, and LinkedIn.**

**Thank you !** from all of us at Adrenaline City Racing, LLC.
