

AGENT BALLISTIC VEST RTF KIT

Medical Pouch Includes Essential Trauma Equipment...

The AGENT Ballistic Vest RTF Kit, formerly known as the ELSA™ (Emergency Life-Saving Armor) RTF Kit, is an innovative, lightweight, compact AGENT Armor Carrier System incorporating soft armor protection and a bleeding control kit all contained in a small, discreet soft-sided briefcase. Medical pouch includes essential trauma equipment to provide immediate point-of-wounding care to injured casualties in accordance to Tactical Emergency Casualty Care (TECC) guidelines. Ideal to store in vehicle compartments or passenger spaces. Quickly and easily transforms into a customizable, mission-configurable soft armor carrier system with a bleeding control kit all in one swift pull of the zipper.

Ruggedly constructed of highly durable, Berry compliant 1,000 Denier Cordura® and the latest GhillieTEX™ hardware. Featuring padded shoulder straps and adjustment points at both the shoulders & waist to ensure maximum comfort and a secure fit. Includes generous MOLLE coverage on the front and back as well as two 4 in. x 10 in. hook and loop ID placards. Each carrier features two integrated armor pouches that accommodate 14 in. x 11 in. Level IIIA soft armor (included). Also upgradeable with additional 12 in. x 10 in., Level III DKX Rifle Plates (sold separately).

Quickly and easily transforms into a customizable, mission-configurable soft armor carrier system with a bleeding control kit all in one swift pull of the zipper.

NIJ certified ballistic protection with a bleeding control kit – ideal for storage in vehicle compartments or passenger spaces...
