

SETCOM® LIBERATORMAX™

WIRELESS APPARATUS INTERCOM SYSTEM

Multi-person intercom system that is versatile and simple to use, making it a great solution for communication needs in many applications. LiberatorMAX offers the flexibility to be used with or without radio integration. Setcom's wireless systems are used by numerous U.S. fire departments with great success.

Please note that due to the frequency LiberatorMAX operates on, this product can only be used in the United States, Canada and Mexico.

ADVANCED WIRELESS COMMUNICATION

LIBERATORMAX™ IS THE MOST ADVANCED WIRELESS HEADSET COMMUNICATIONS SYSTEM FOR FIRE APPARATUS:

- 1,500 ft. of range
- Up to seven headsets per channel
- Eight talk group channels
- Option to connect mobile and/or portable radio
- **Applications Include:** brush truck, engine, ladder, ambulance, pump operator, search and rescue

LIBERATORMAX™ OFFERS THE OPTION TO USE THE HEADSETS STANDALONE FOR INTERCOM PURPOSES OR ADD RADIO INTEGRATION:

- Full-duplex intercom capabilities are available within the headsets, no base station required
- Instantly connect to a portable radio with a portable radio accessory cable
- One base station wirelessly connects up to seven headsets for both intercom and radio-transmit capabilities when mobile radio integration is needed
